Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-5, 9, 11, and 12 are rejected under 35 U.S.C. 102(b) as being anticipated by Weisberg (US#3066616).

3. Weisberg discloses a mail retrieval system comprising: a support assembly including a rail 10 member, a carriage member 20, and stanchion members 11,12; a mail receiving member 19 (Fig. 6) including a perimeter wall (housing) and pivoted cover member (door); a drive assembly, namely a motor 21 inherently coupled to a power source ; a drive assembly including a drive member 18,23 and housing member 22.

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claim 13 is rejected under 35 U.S.C. 103(a) as being unpatentable over Weisberg in view of Upton (US#6161756).

6. Weisberg fails to disclose a rotating signal member. Upton discloses a mail retrieval system including a rotating signal member attached to a mail receiving member 11 to indicate

the presence of mail therein. Therefore, as taught by Upton, it would have been obvious to one of ordinary skill in the art at the time the invention was made to modify Weisberg to include a rotating signal member on the mail receiving member to indicate the presence of mail therein.

Allowable Subject Matter

7. Claims 6-8 and 10 objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

8. Claim 14 is allowed.

Conclusion

9. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. See PTO-892.
